

To whom it may concern

This letter is our recommendation for R.I.B.A. architect, Tim Moll.

We have been Tim's clients for the past three years and he has provided us with plans for three projects, two residential and one commercial.

It is a pleasure to work with Tim. We have always found him to be very personable, friendly and reliable, whilst at the same time very professional and flexible.

One of the important qualities for us is that Tim is a good listener and hence has always met our brief. He has listened to our thoughts and ideas, as the client, and the resulting plans have always provided innovative schemes, been delivered in a timely manner and above all, met our requirements.

Tim has always been conscious to provide solutions that work within our prescribed budget for each project. He will highlight any potential issues he foresees and comes up with alternative solutions. Moreover, Tim has always shared his knowledge of the local planning policies and has made sound recommendations from both planning application and designs perspectives. Above all, he has helped us to maximise the potential in our projects.

We must highly recommend Tim Moll as an architect. He is an asset to any project.

Yours sincerely,
Martyn and Catherine Hollywood
Windmill Hill House,
Long Melford
